

RICO MATRIX

The World's First 100% Decentralized
Library Matrix That Pay Users Royalty
Passive Income On Autopilot

BINANCE SMART CHAIN

DECENTRALIZATION **&** ***SMART CONTRACT***

What does decentralization mean? And how do you profit from it?

Decentralization means no single owner—your earnings are controlled by a smart contract, so you profit directly with maximum security and resilience.

A smart contract is an algorithm, inside the Binance Smart Blockchain. It is a self-executing program that automatically runs agreed rules like sending, locking, or distributing crypto. Once it's deployed, it follows its code exactly without needing any bank, admin, or middleman to approve or control the process.

Rico Matrix is a self audited smart contract that mitigates the risk of hacking and stopping the project.

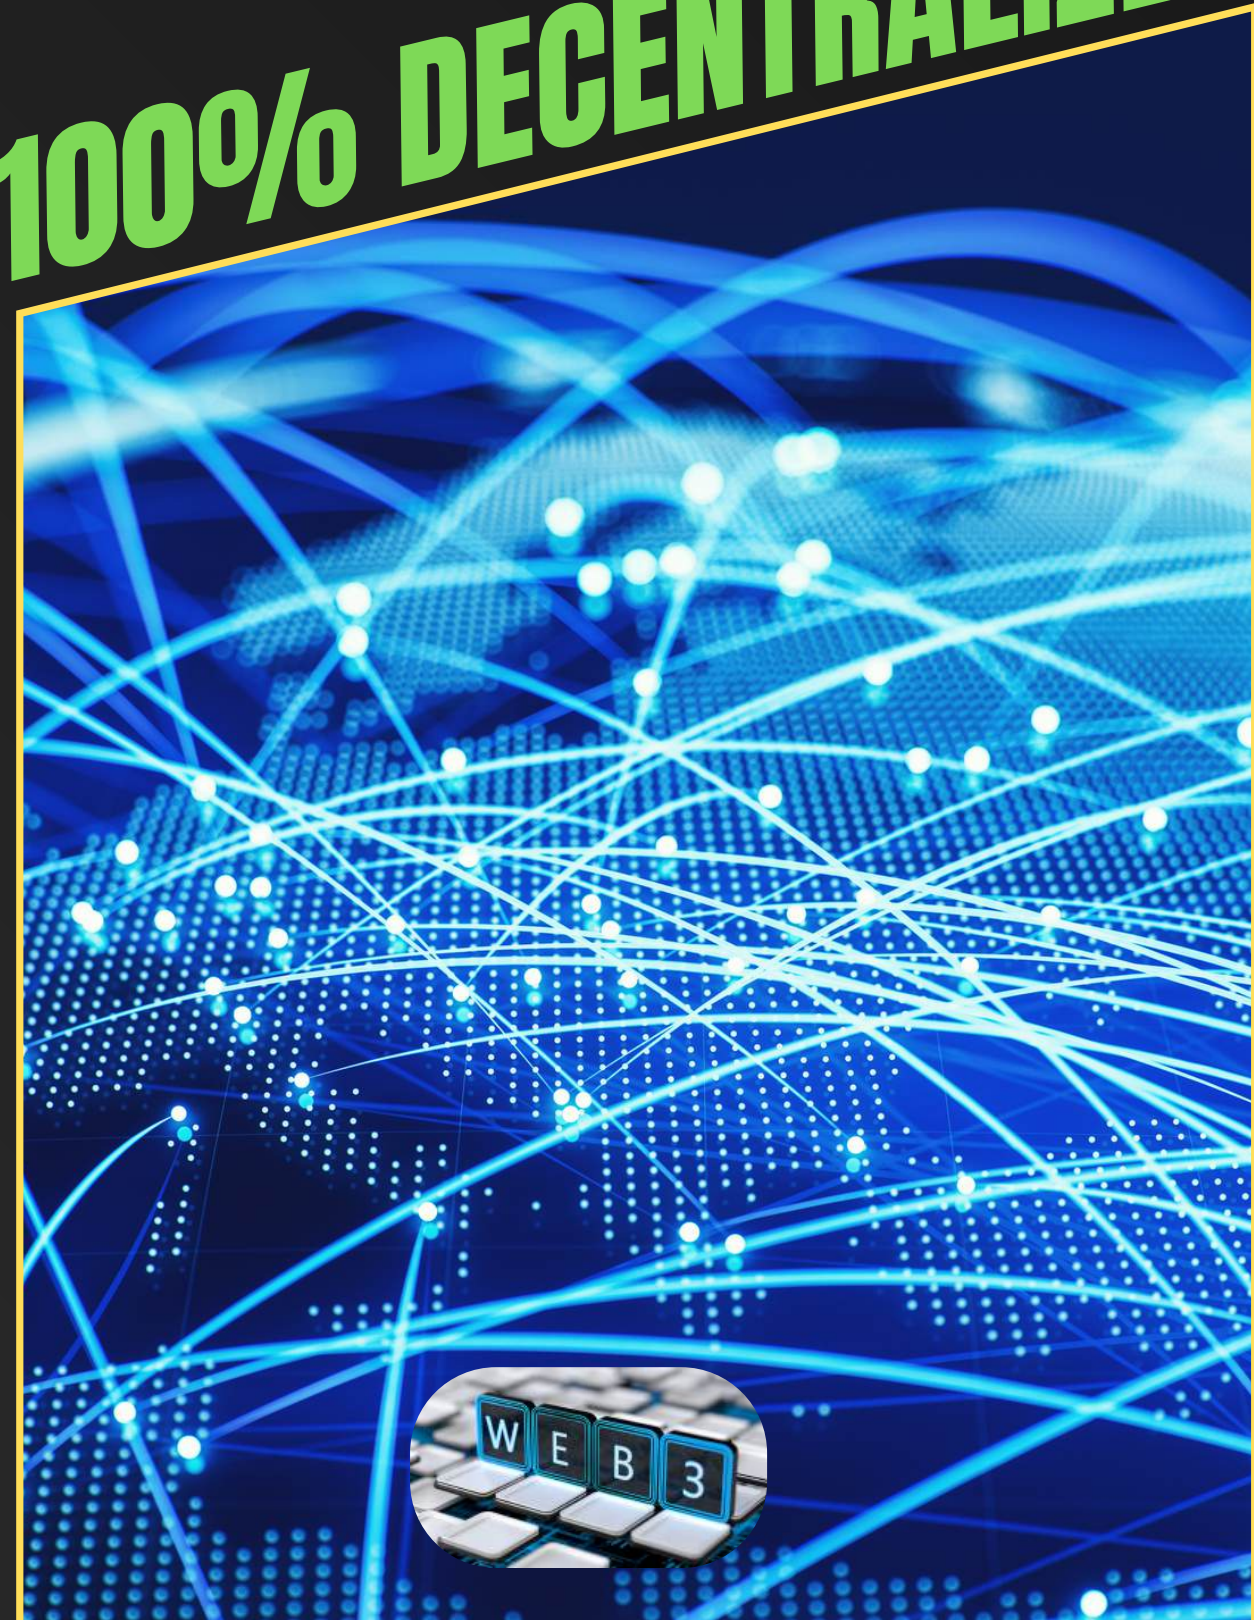

WHAT IS RICO MATRIX

This is a revolutionary De-Fi Learn to Earn Library system built on a dual-matrix structure: X3 and X6.

This innovative approach combines direct and spillover earnings, offering a dynamic and rewarding experience for participants.

The system is designed to provide multiple income streams through matrix commissions, unilevel rewards, auto-recycle features, royalty passive income, Intellectual Property and RICO coin farming.

ROYALTY >>>>

PASSIVE INCOME

Designed to reward both active and inactive users for a very long-term
You earn from your team and global royalty community pool.

Buy/upgrade levels to qualify for passive royalty dividends.
A global pool of 30% covers:

✓ **COMMUNITY PAYOUTS**

✓ **PLATFORM FEE DISTRIBUTION**

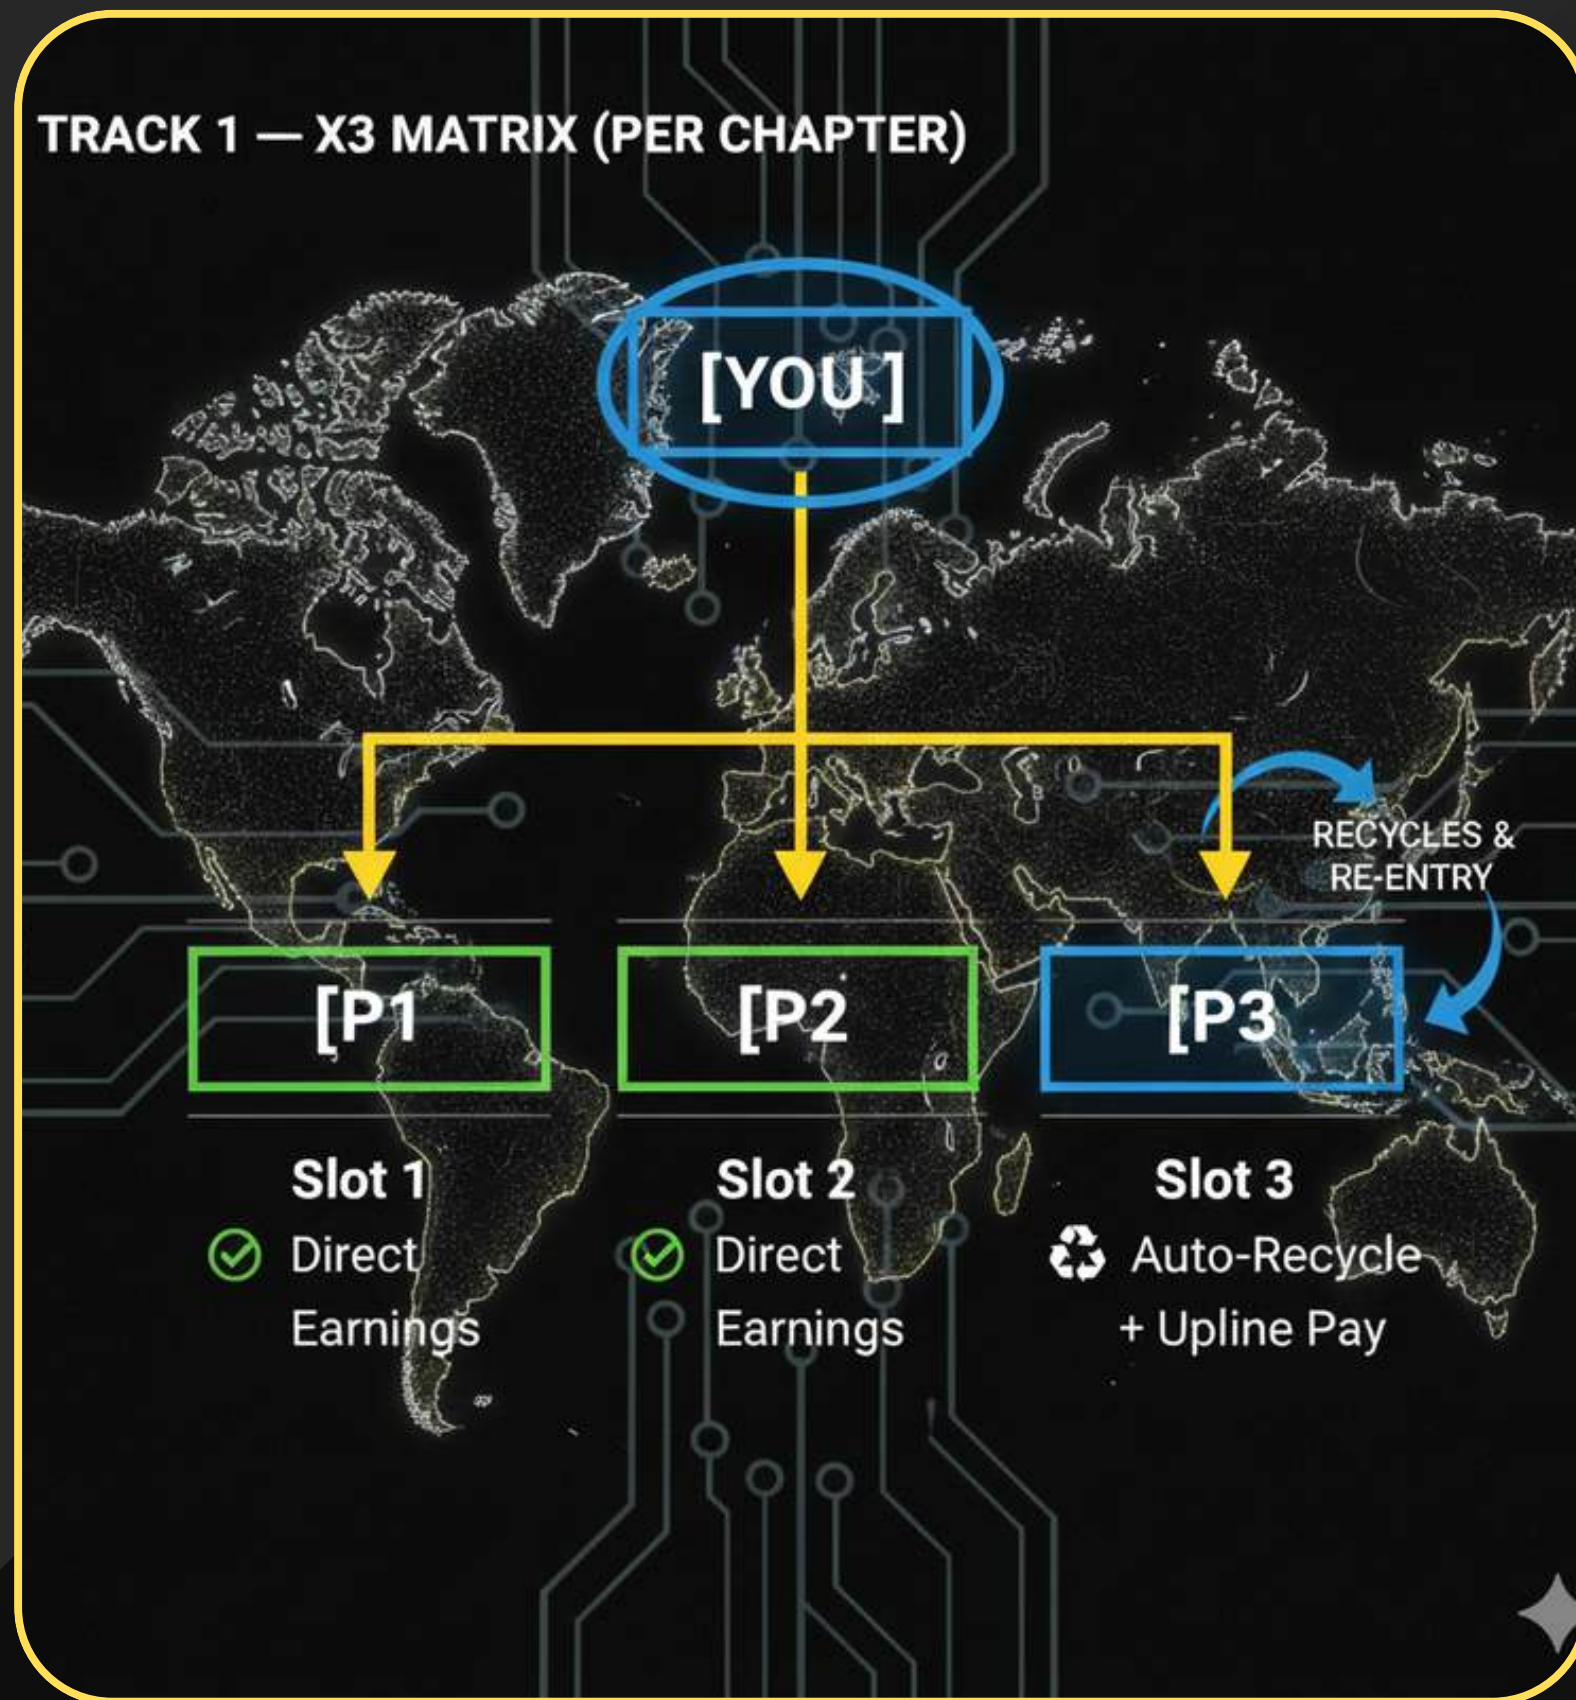

HOW X3 MATRIX WORK

✓ ONE LINE - 3 PLACES

The X3 matrix is your direct sales engine. It's a 3-referral position matrix where you earn directly from each referral.

✓ UNLIMITED AUTOMATIC REINVESTS

This position triggers an auto-recycle, re-opening the matrix for you to earn again and again

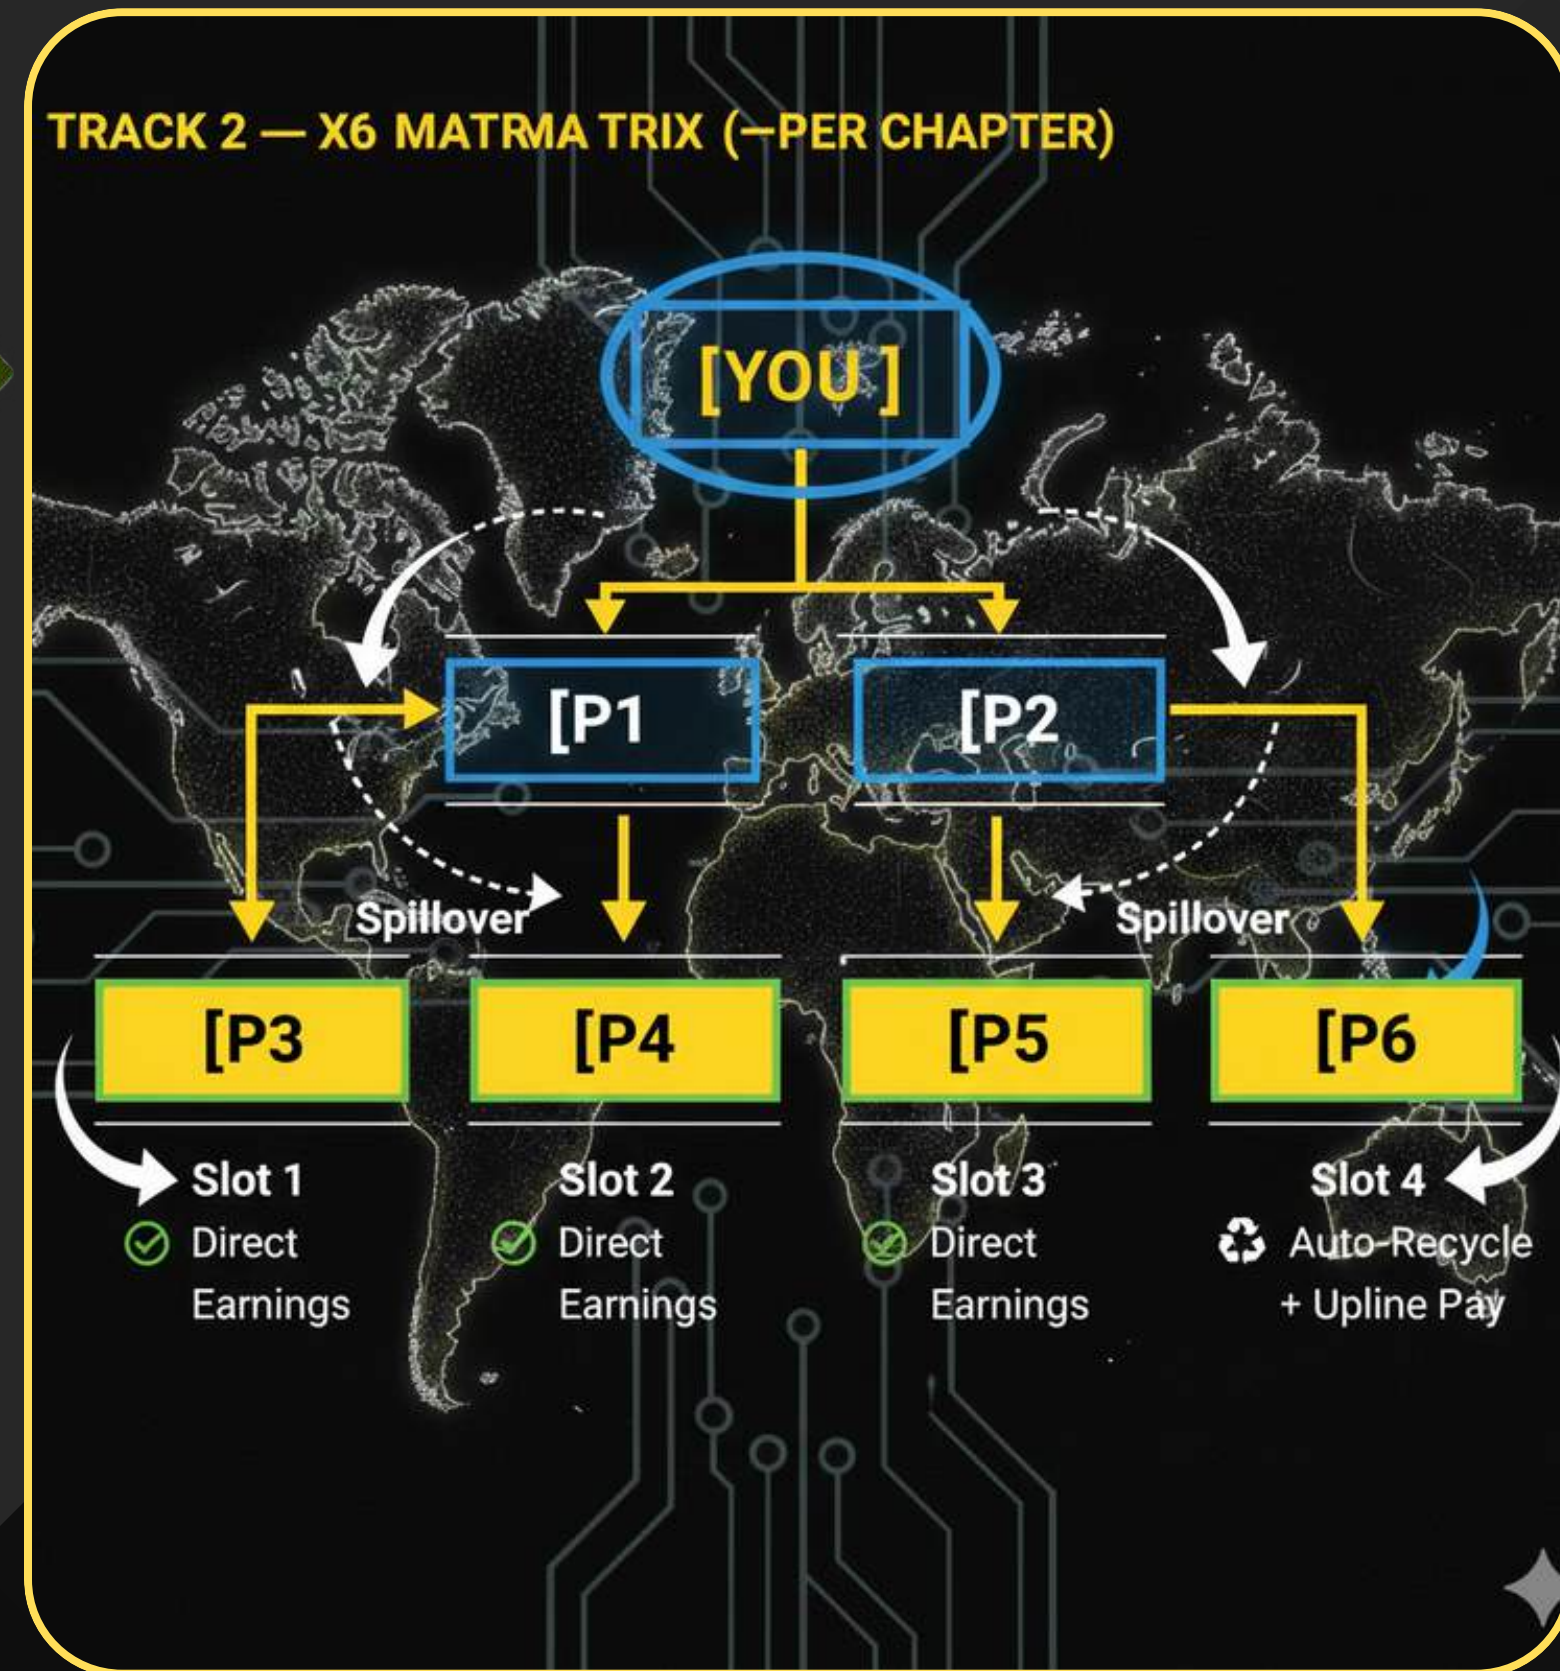

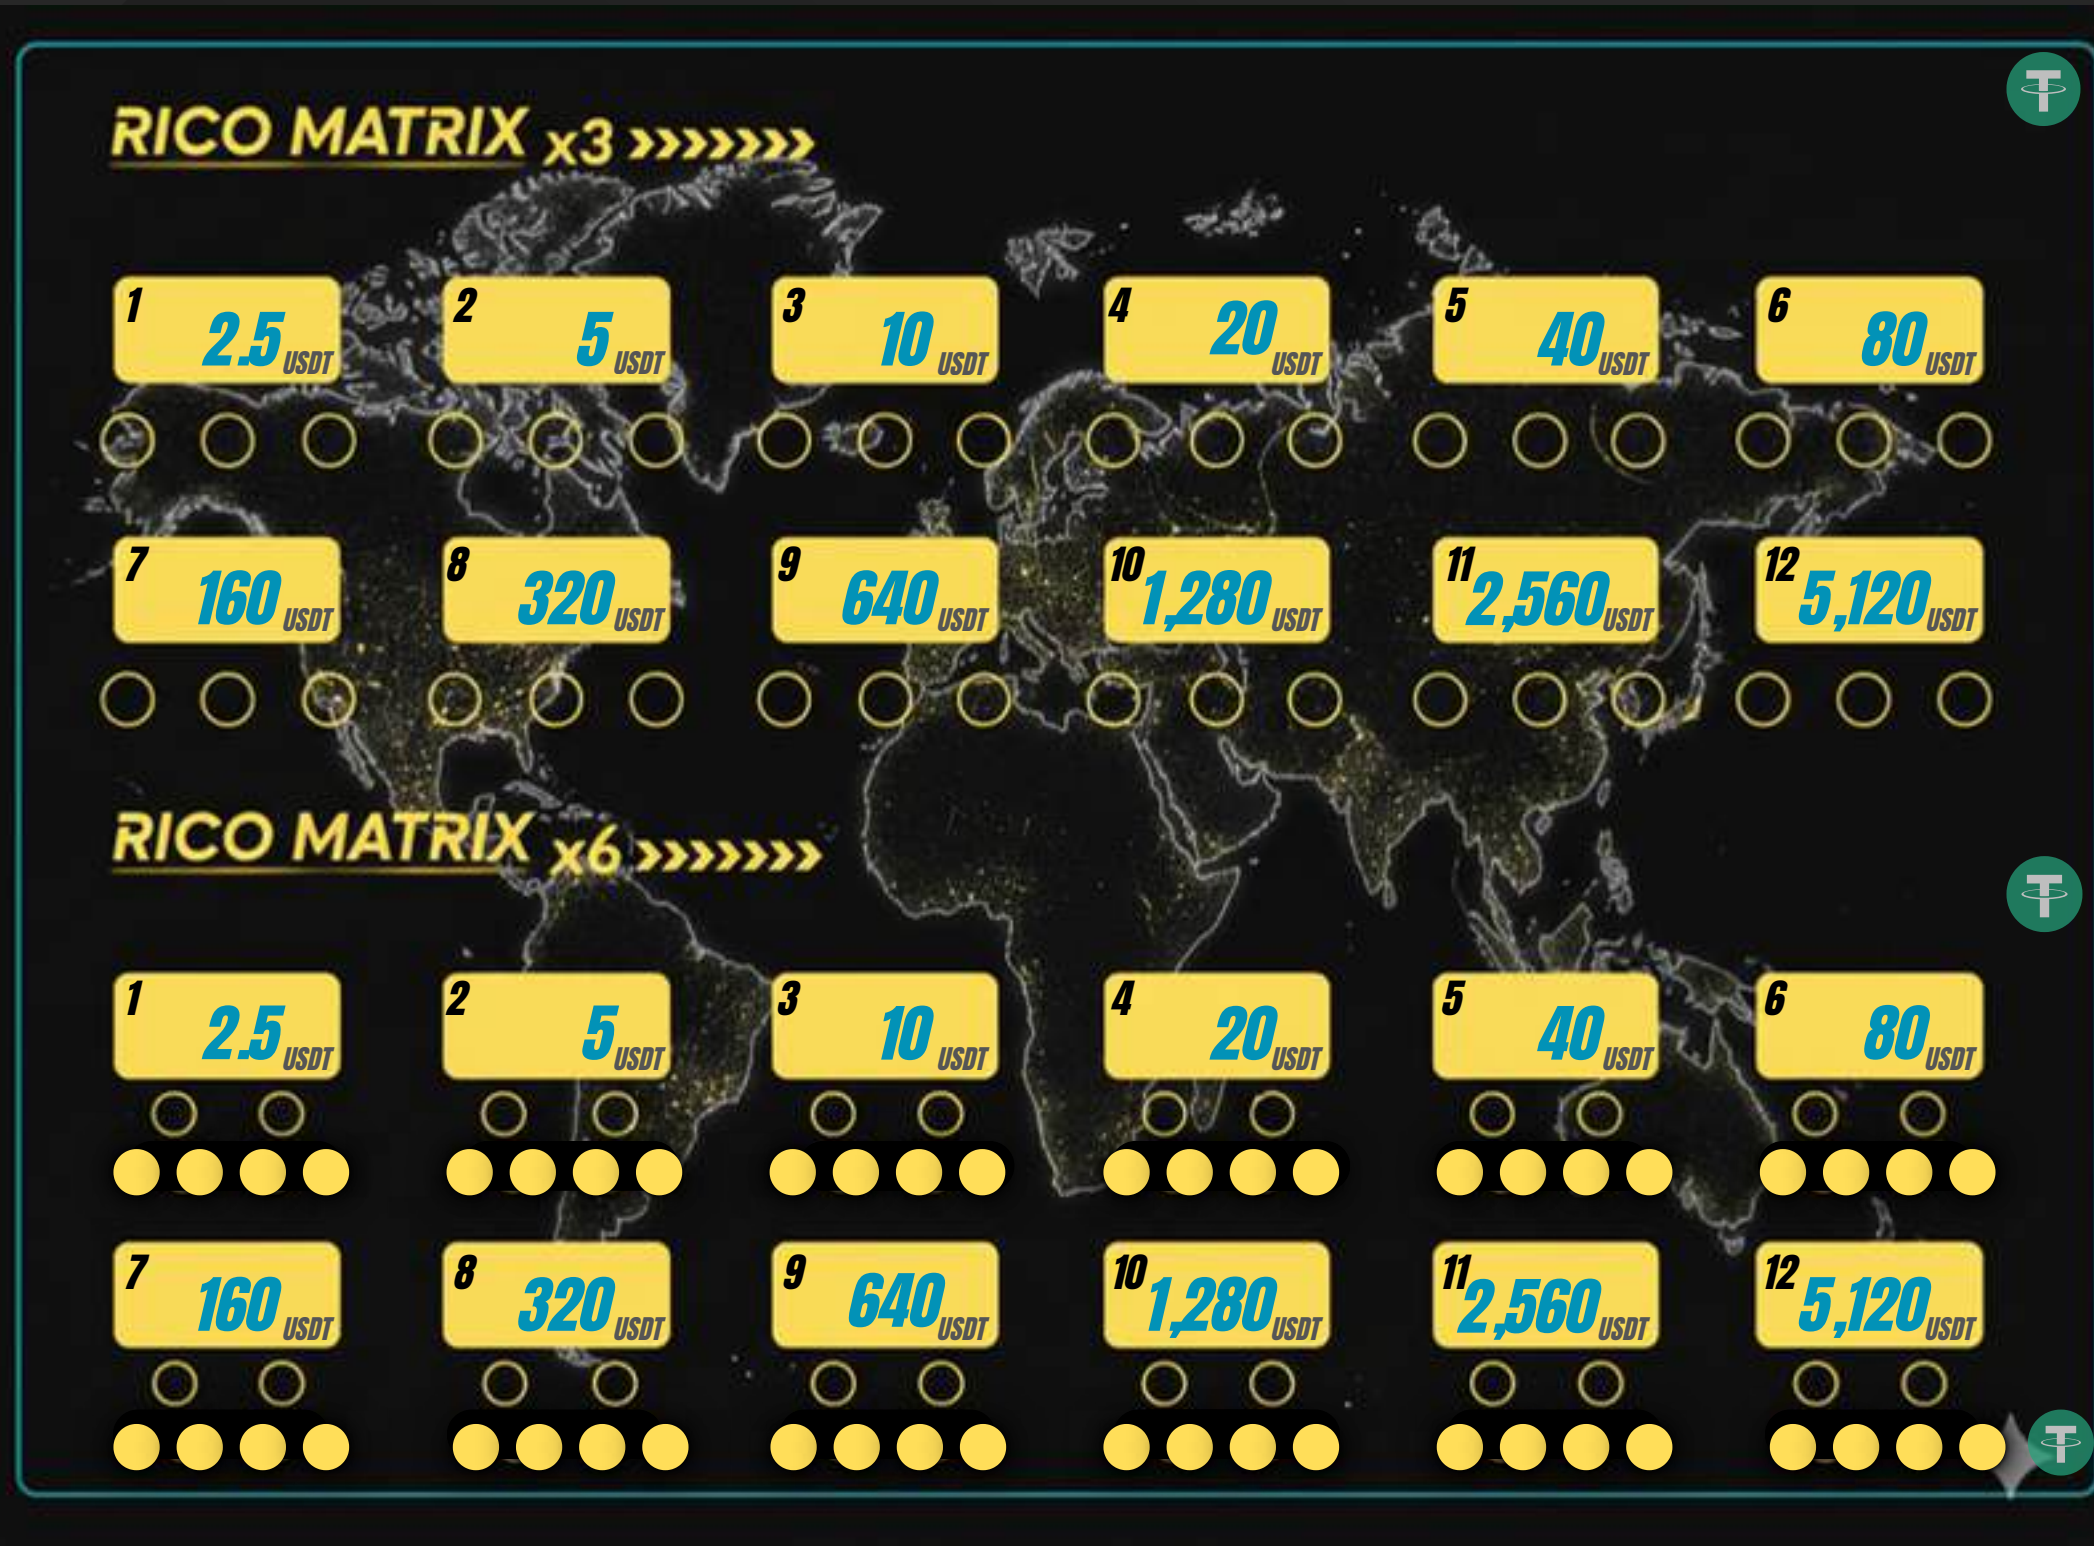

HOW X6 MATRIX WORKS

✓ TWO LINES - 2 + 4 PLACES

The X6 matrix operates on a spillover system. It's a 6-position matrix that fills through your direct efforts, your upline's efforts, and the efforts of your downline.

This creates potential for passive earning and team-based growth.

CHAPTERS

In each of these two programs, RICO x3 and RICO x6 have 12 chapters. All similar and work in the same way.

Each subsequent slot is 2 times more expensive than the previous one. Both income and profits from them are twice as high!

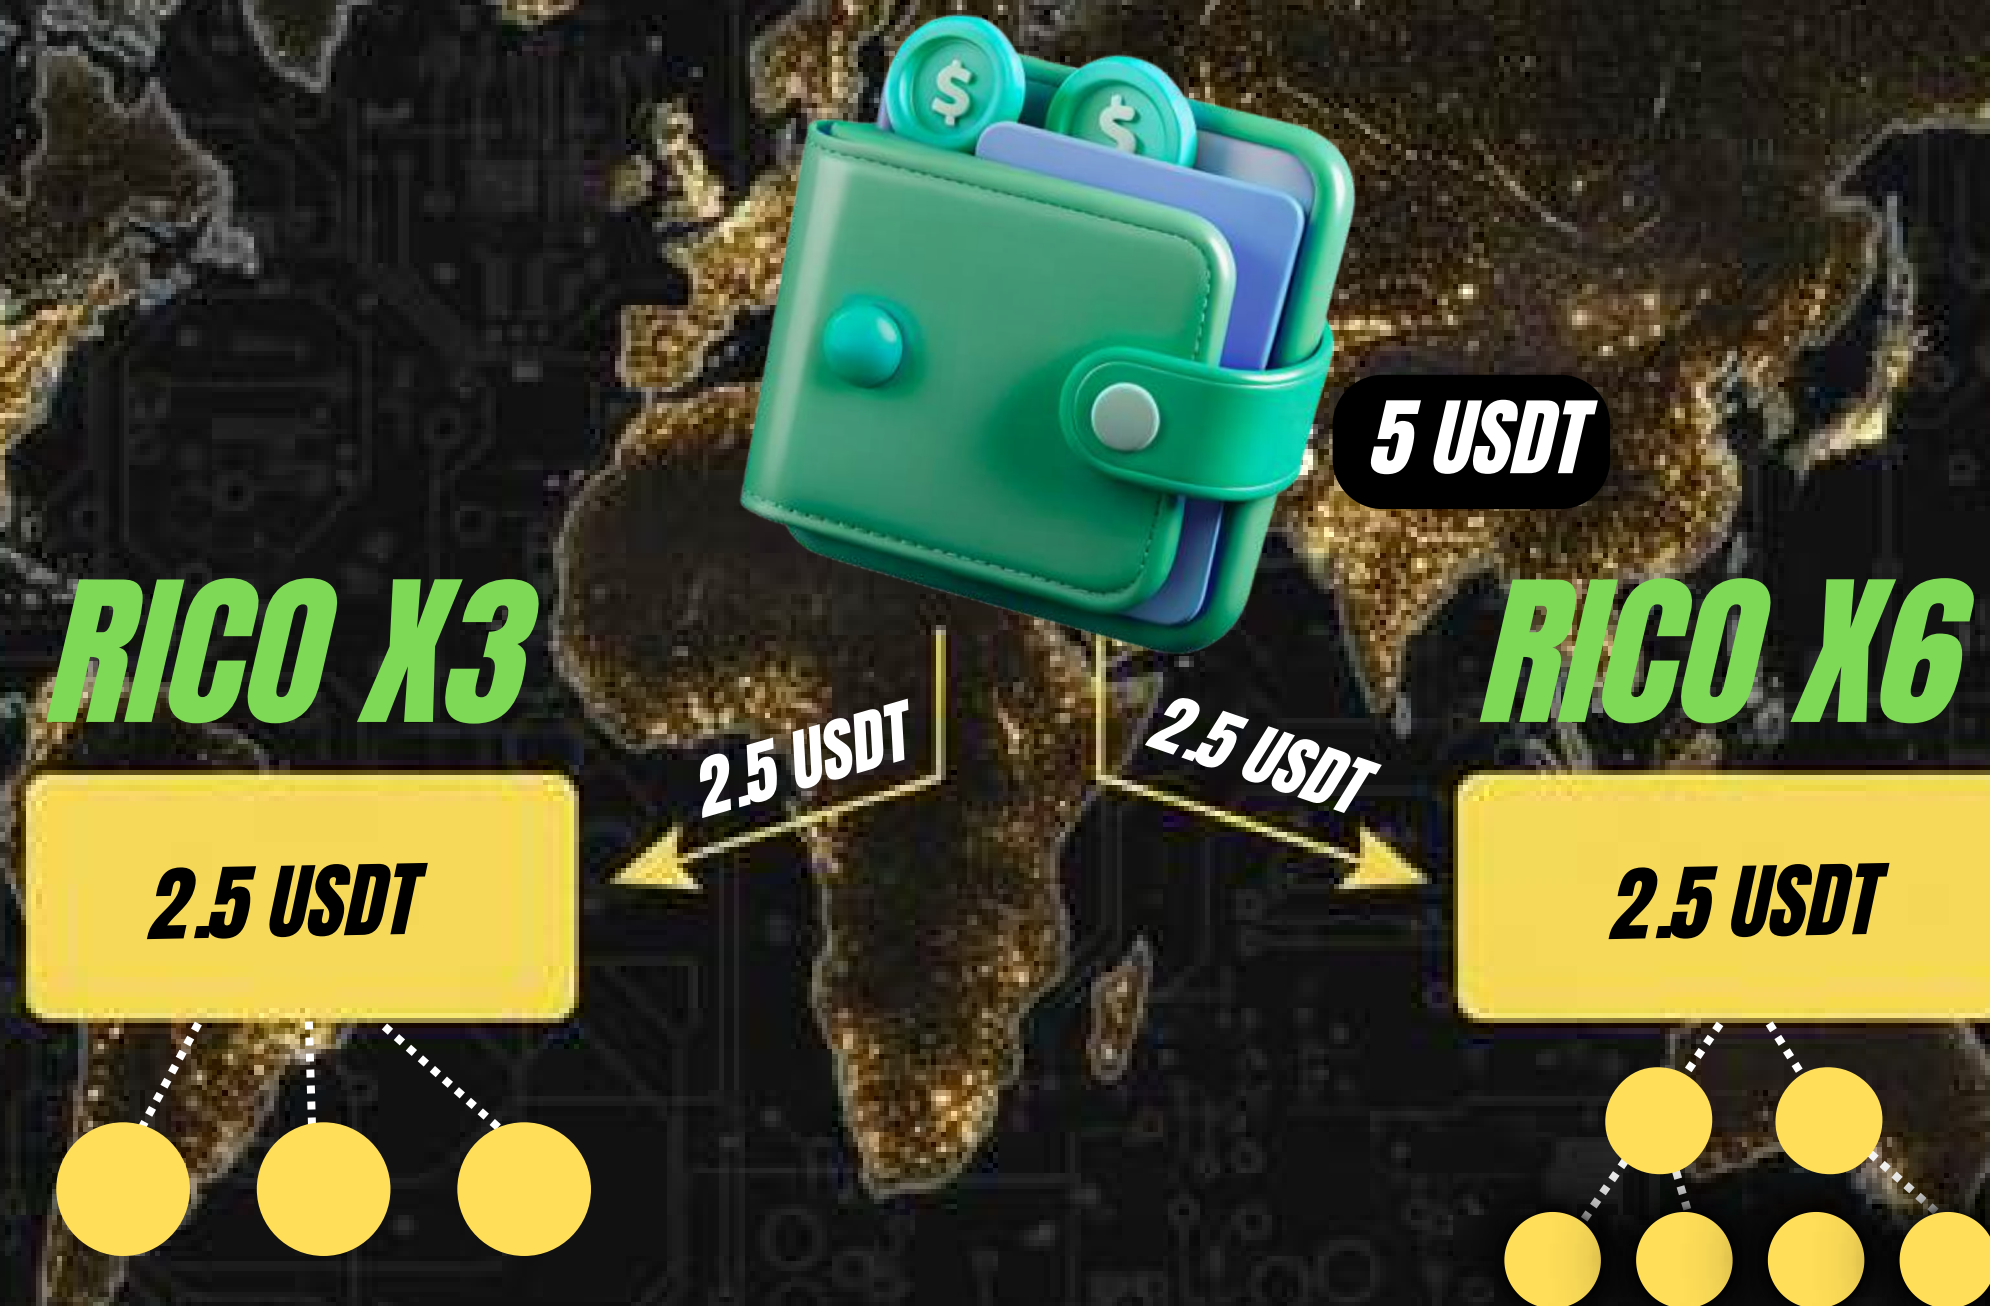

How many chapters can be activated immediately?

As much as you want! At least all twelve at once!

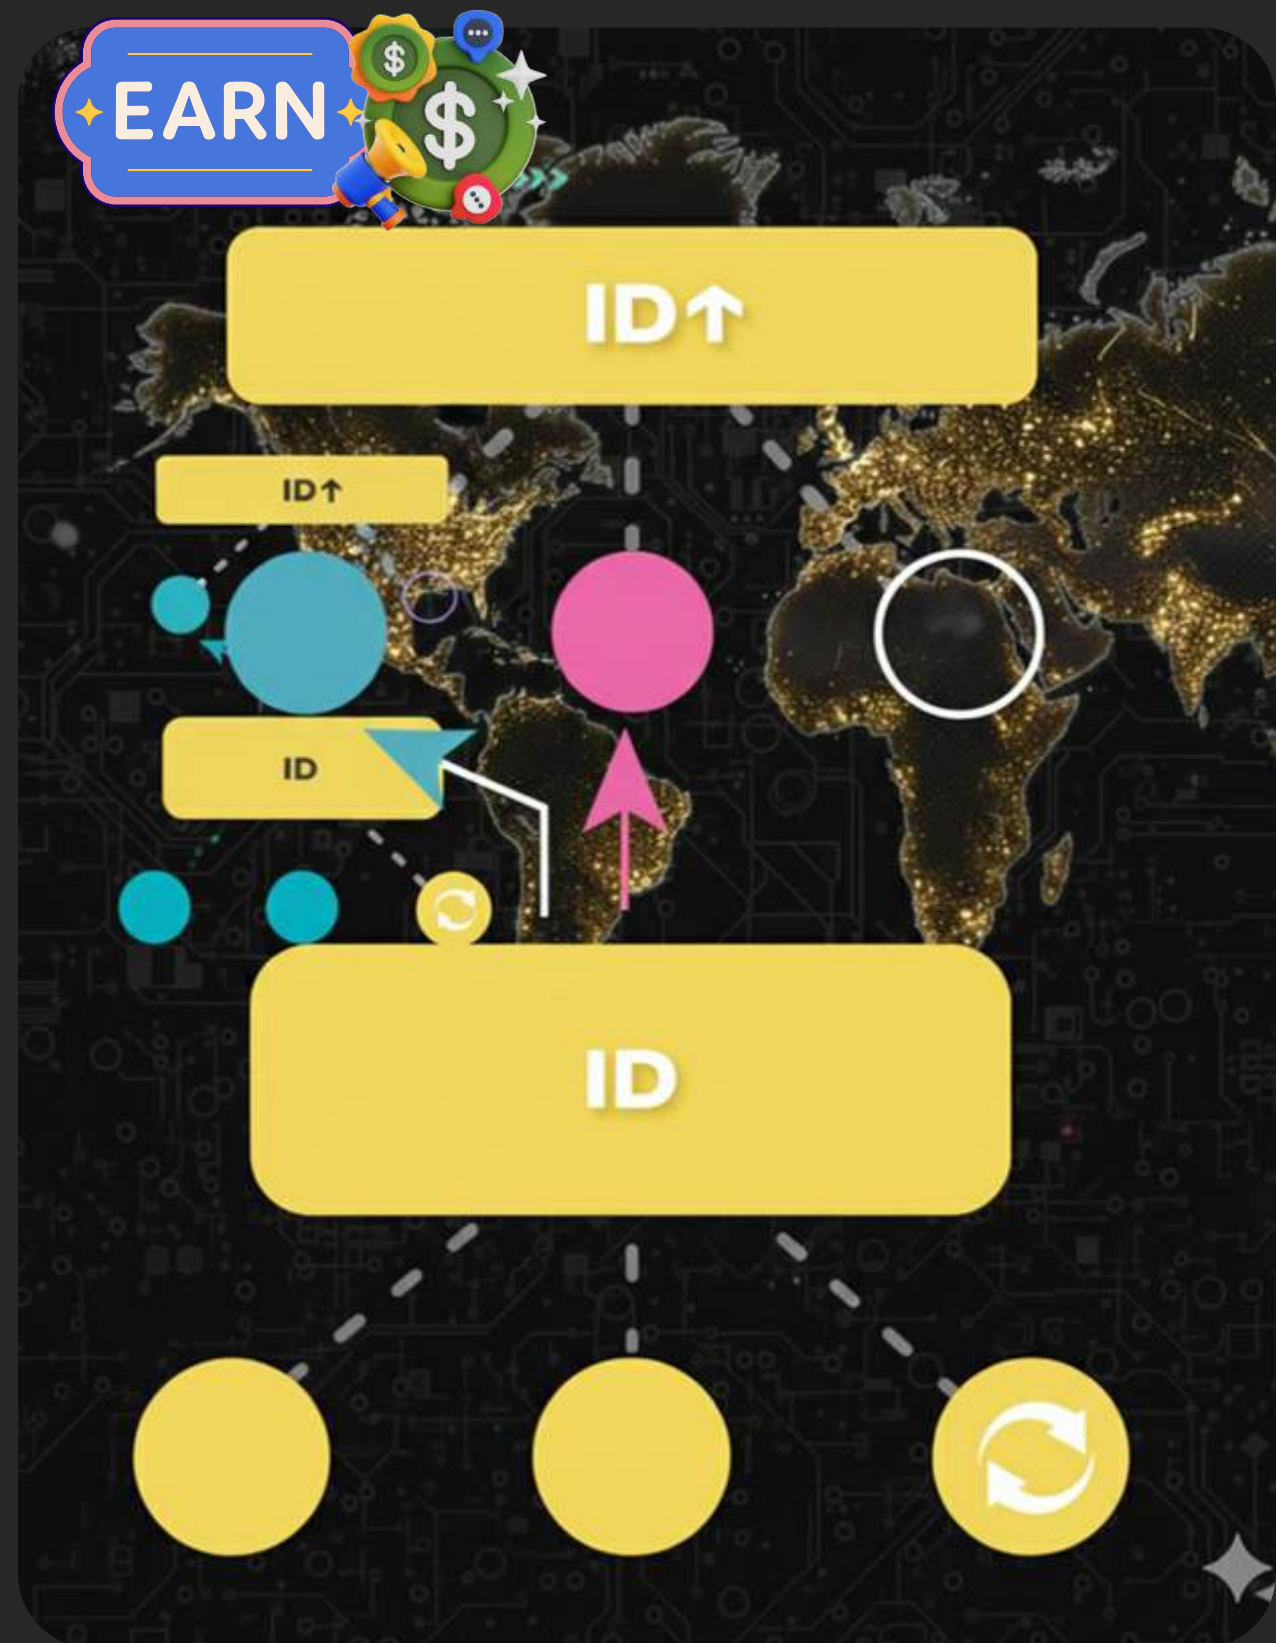

They have no expiration date, so you can not be afraid that they will burn. All active chapters move and bring you revenue in parallel

The first slot of each chapter program costs **5 USDT**. They are bought together; separately, the first slot cannot be taken. Accordingly, the start of the matrix is generally **5 USDT**. You can purchase all further slots separately, in order from the smaller to the larger. It is impossible to buy a third slot without having a second open.

CHAPTER REINVEST

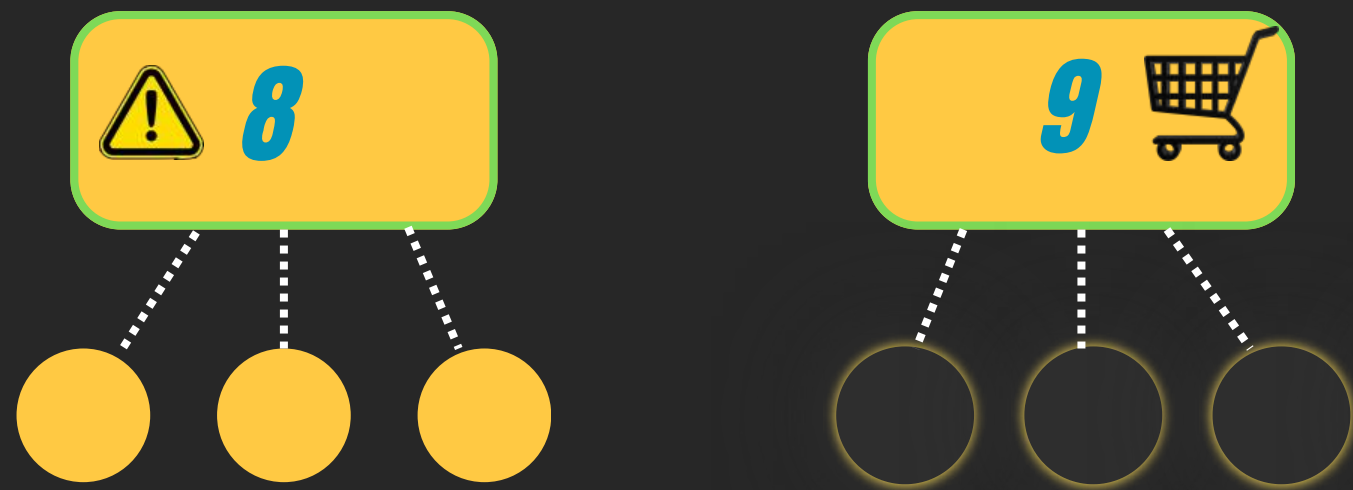

This is the re-opening (purchase) of the slot at the current level.

Reinvest takes place automatically, as soon as you occupy the last free place, the current slot closes and goes to the archive.

UPGRADE

 **Lost profit** – payment left to a higher partner, due to the lack of an upgrade to a more expensive chapter

 **Extra profit** - payment received to you at the expense of the Lost profit of a lower partner.

UPGRADE – is the opening (purchase) of the next slot of a more expensive level. It is done once at the first opening of the slot.

If you do not upgrade, you get blocked on your current level once you have earned and recycled for the first time.

If you wish to continue earning on that current level and newly bought level, you must upgrade.

○ partner who overtook his superior

○ overflow from below (personally invited partner of your downline)

○ personal partner

○ Overflow (personally invited partner of your superior)

OVERFLOWS AND OVERTAKING

You can **overtake** your upline partner by opening slots which he has not yet reached. In this case, you get up to his superior partner who has such level of the slot, and the income goes to them
